

FONTANA CANDIDA SANTA TERESA FRASCATI SUPERIORE DOCG 2019

WINE INTRODUCTION

A delicately fruity and floral Frascati Superiore, with pleasing freshness that comes from the grapes, grown by Fontana Candida on its own estate, covering about 13 hectares on the volcanic hillside in the Santa Teresa district.

WINEMAKING NOTE

Harvesting was staggered to take into account different grape varieties and respective ripening curves: first Malvasia del Lazio, then Greco, and lastly Malvasia di Candia. Soft pressing is followed by off-the-skins vinification of the Malvasia di Candia and Greco, while the Malvasia del Lazio is left in cold maceration on the skins for 12 hours. After settling, the must ferments at 15–16 °C with cultured yeasts. The wine is then aged in temperature-controlled stainless steel tanks until bottling.

APPEARANCE, AROMA AND TASTING NOTE

Gleaming straw yellow with a delicate but defined nose of subtle floral notes with hints of sage and apple. A full flavour, which soft but fresh and perky, tangy with an unmistakable and pleasingly persistent sweet almond aftertaste. The wine is especially elegant.

WINE INFORMATION

Country:	Italy
