

# POGGIO AL LUPO VERMENTINO TOSCANA IGT 2018

## WINE INTRODUCTION

Vermentino is the white grape most widely cultivated along the Tuscan coast, where it expresses its organoleptic characteristic at its best. The soil, rich in minerals and limestone, transmits to this wine crispness and minerality.

## WINEMAKING NOTE

Fermentation took place in small stainless steel vats at a controlled temperature for at least 15 days, after which the wine was aged in stainless steel tanks.

## APPEARANCE, AROMA AND TASTING NOTE

Clear straw yellow with green reflections. On the nose citrus and floral notes are well-integrated with mineral ones. On the palate, it is well balanced by crispness and softness and should be served at 8-9°C.

## WINE INFORMATION

Country:	Italy
Region:	Tuscany
Sub Region:	Maremma
