

PATRIMONY ESTATES CABERNET FRANC 2019

WINE INTRODUCTION

Patrimony is rooted in DAOU mountain's unmatched alchemy of soil, aspect and climate, and realized through meticulous vinification of our most noble vineyard rows. The phenolics produced here are known to be among the highest in the world, fostering an immensity of color, depth and structure that is only enhanced by the rigorous viticulture required to make Patrimony.

WINEMAKING NOTE

Patrimony fruit undergoes state-of-the-art optical sorting to ensure absolute flavor integrity. Fermentation proceeds exclusively with wild yeasts cultured from DAOU Mountain, imbuing the wine with native texture and character. The wine is made entirely from free-run juice. Maturation unfolds for 30 months in rare French oak barrels prized for their fine grain and distinctive elegance. Only after further aging in the bottle for one year do all of these aspects coalesce into complete symmetry. The result is a most pure expression of the Cabernet Sauvignon grape —abundantly layered, extravagant in depth, and intricately poised to the end. The Patrimony aging program is built around the most coveted French oak barrels that are accessible only through personal relationships with top cooperages. Collectively, these barrels provide for absolute oak integration and staggering complexity over a maturation period of 30 months, all without encroaching upon the pure qualities of our DAOU Mountain fruit.
